EXECUTIVE VICE PRESIDENT: MINING  
**ANNOUNCEMENT**

29 July 2024

I am delighted to announce that Stuart Miller will be stepping into the role of Executive Vice President: Mining, effective 16 September 2024. Stuart brings a wealth of experience and a strong record of accomplishment in the mining sector, having held various leadership roles across several international mining jurisdictions.

Stuart holds a Bachelor of Engineering (Mining) from the Western Australian School of Mines. He is a seasoned mining services executive with over 25 years of experience, having worked in more than 20 countries across EMEA and the Asia-Pacific regions. His expertise spans strategic planning, project management, and cross-cultural leadership, coupled with a deep understanding of both the technical and commercial aspects of mining, particularly in the drill and blast sector.

Throughout his career, Stuart has demonstrated measurable success in leading global businesses in the mining chemicals and services industries. His leadership has been instrumental in achieving significant growth and efficiencies, and he has a proven track record of guiding diverse teams to surpass targets and deliver step-change growth in the businesses he has led.

Stuart's extensive international experience and strategic vision will be invaluable as we advance our corporate strategy and optimise our operations. Please join me in welcoming Stuart to AECI and extending our heartfelt thanks to Thinus for his leadership and stewardship of the Mining Division.

We look forward to Stuart, his wife and three children joining the AECI family soon.

Warm regards,

**Holger Riemensperger**  
*Group Chief Executive Officer*
